Training	Power BI	Dashboarding and analytics	https://powerbi.microsoft.com

Recommended Daily Workflow

Morning

- AI-generated project status
- Team workload analysis

During Testing

- AI bug summaries
- Auto test cases
- API validation

Meetings

- AI MOM generation
- Action item extraction

End of Day

- AI sprint report
- Pending blocker analysis
- Client update draft

Recommended Career Path

Current Role:

- Project Management
- QA Testing
- Bug Reporting
- Client Coordination

Future Upgrade:

- AI Delivery Manager
- Technical Program Manager
- QA Automation Lead
- Product Operations Manager
